Enclosed is the document Terry was talking about in today's call. The tables he was referring to were not in the appendix they are located in the main body of the text on pages 21 – 24. These tables lack any specificity. It just states what it will take for CRW to meet percent capture in certain CSO catchment area with the green gray approach, but other than this, there is no additional information.

**Subject:** Follow-up to CRW Meeting

I spoke with Steve after the meeting, and we agreed to have a follow-up meeting with Rick next week to recap and figure out how to plan for the next meeting as well as figure out if the letter we drafted needs to be revised.

Karen/Joan – Do you want to have any further follow-up as well? Please let us know.

Thanks.
